To the Membership and Others Interested:-

A tabulation of the answers given on the returned questionnaires relative to the time and place for the Fall meeting, indicate Kansas City and September 10 and 11 as the choice of the majority.

All but three were in favor of Kansas City as the meeting place and all but six named September 10 and 11 as their preference for dates.

So please reserve those dates on your calendar NOW, and if you cannot arrange any other way to be present, include the meeting as part of your vacation trip.

The officers are very anxious to make this gathering the largest we have ever had. That means that we would like to have not only the largest number of stations represented, but also that we would like to see two or more present from each station. It strikes us that our chief operators, our program directors, and others, will get a point or two that will justify the time and expense necessary to make the trip.

Several topics have been suggested for discussion. These will be arranged in program form, possibly to occupy the mornings, while the afternoons will doubtless be given over to round table discussions. I want to point out however, that the program will not be so formal as to bring discomfort or displeasure to those attending. We will attempt to run the two days to meet the desires of the greatest number.

May I ask your utmost cooperation to make the meeting a success?

Cordially yours,

Joe Wright

COMPARATIVE TABLE OF MEMBERSHIP FOR YEARS
1929, 1930 and 1931. Con't.

WGST - Is said to be operated by "Southern Broadcasting Stations, Ind. but I think the Ga. Tech. uses it.

KUOA - Reported (indirectly) to be rented to commercial company for two years.

WDBO - Paid the $3.00 dues twice during 1929. They had also paid for 1928. They did not seem to consider themselves a member station during 1930, but I have put them in the 1930 column in parenthesis, not counting them in the total number. Perhaps they paid dues as an associate member when the Orlando B. C. Co., took over the station.

PROPOSED NEW SCHEDULE OF DUES, NAEB

I. Active (Voting) Members:

A. AM Stations:

250 Watts	$15.00
500 Watts	20.00
1,000 Watts	25.00
5,000 Watts	45.00

B. FM Stations (By rated power input):

Up to 10 Watts, Inclusive	$10.00
100-250 Watts	15.00
1,000 Watts	20.00
3,000 Watts	25.00
5,000 Watts	30.00
10,000 Watts	35.00
50,000 Watts	50.00

C. Combinations (i.e., AM plus FM):
Will pay full rate for first station (usually AM), plus one-half (½) the rate quoted above for a second station. If three or more stations are operated, an additional one fourth (¼) of the quoted rate for the third station will be charged, with no charge for additional ones.

Example: You have a 1,000 watt AM and a 1,000 watt FM.

Charge for 1,000 watt AM	$25.00
½ charge for 1,000 watt FM	10.00
Total Bill	35.00

For an additional third 1,000 watt FM station, ¼ the 1,000 watt FM rate or an additional $5.00 would be added for a total of $40.00 per year.

II. Participating Members (Non-Voting, Producing Organizations, Agencies and Institutions, which receive all services of NAEB - Newsletter plus all studies and surveys) replaces old Associate Category - $10.00

III. Associate Members (Individuals or Non-Producing Groups, Non-Voting, which receive only Newsletter) - $5.00

SUGGESTED: For those institutions interest, replacement of the word "dues", in billing, by "Services and Subscription." Each application blank will include a question as to which terms should be used in billing, and a blank in which the applicant or member will indicate the number of copies of the bill needed under his particular financial or administrative set-up.

With great respect I write to ask the nature of the impression that would be made upon you if the holders of the $28,000,000,000 worth of United States government bonds now outstanding should demand that you make a law requiring our government to pay off the whole $28,000,000,000 right away although most of it is not due for many years to come. Would this impress you as a fair demand? If financially possible, would it be a wise and trustworthy protection of the interests of the whole American people whom you represent in the Congress?

If so, would you think well of trying to raise the whole $28,000,000,000 at once by taxation, or trying to borrow it from somebody else, or avoiding both of these disagreeable endeavors by running the whole sum off the printing press in new additional money? You would have in mind that such a demand for immediate payment, if made upon you, would represent the insistence of thousands and thousands of little American depositors - all of them American voters - in the American banks which hold the bulk of the bonds.

I think I understand the impatience with which you have read this letter thus far.

But is there any difference, save in degree, between such a demand and the demand of some of the veterans of the last war that you pay off to them right away the bonus that is not due until 1945, ten years away? What is the nature of the impression that this bonus demand makes upon you?

Now the demand for immediate payment of the national debt is, thank heaven, not likely to be made, but the bonus demand has been made and will be made again the moment the 74th Congress, of which you are a member, convenes three weeks hence. Immediate payment of this bonus, which was accepted by the veterans as an obligation due in 1945, and not in 1935, will cost the rest of the American people well over $2,000,000,000. Will you take this out of us in taxes all at once, or try to borrow it from somebody else, or run it off the printing press in inflated money?

I think I understand the impatience with which you may look upon this bonus demand; and you and I both understand the impatience with which our hard-pressed American people will look upon the idea of paying a "bonus" to a favored few ten years before it is due to them.

After all, how many of these 3,500,000 "veterans" ever got hurt in the war at all? Most of them are in perfect health today, and better off than any other class of Americans, yet already they get more relief than anybody else.

And now a two-billion dollar bonus besides, to be paid right away - anything else?

Wishing you a very merry Christmas, I am

Yours very sincerely,

Harry S. Truman

Professor B. B. Brackett
Station KUSD
University of South Dakota
Vermillion, South Dakota

Dear Professor Brackett:

In the recent hearing on Senate Bill 5201, the bill proposing to place a service charge on broadcasting stations to reimburse the government for the cost of maintaining the Radio Commission, a list of educational and religious stations was placed in the record.

In case you did not run across this, I am attaching a copy of the list in order that your records may be checked with it. I have no way of knowing that this list is correct, but here it is for whatever it is worth.

Cordially yours,

Joe

When we decide just how much to broadcast, I believe we should make out a general schedule similar to that on the first page of The University of Kansas News-Letter, and also specific programs for each month, like that on page four of the News-Letter.

Whether we broadcast any more hours than we did last year or only the eight hours per week, we should have our programs definitely listed and published in advance. Each person should be due at an exact hour and for an exact time. If he or she cannot be present, a substitute should be sent or a carefully written feature presented at least a week in advance, so that an announcer can prepare himself to read it properly.
